School of Nursing

Looking Forward

Within these portals our dreams have become realities. When, as preliminary students three years ago, we entered the Nursing School of the Medical College, our vision was blurred with bewilderment; our steps uncertain. A new world has been opened to us; and now as we complete our training, we take with us memories of the spirit of our school, and inspiration which honest, loyal fellowship has given us.

We are living in an era filled with events of great historic importance . . . through war and now through a period of universal reconstruction and rehabilitation. We are facing uncertain tomorrows; and continuing with nursing, we shall meet new and difficult problems. Our reasons firm with temperate wills; we have learned tolerance and foresight, and have gained endurance and skill.

We feel our inexperience, but this serves as a challenge as we take up our duties. Our success will depend upon our achievements of the past three years; the knowledge we have assimilated; the personalities we have become. If we catch the spirit that the Medical College offers, we can go forth to meet the future with courage and faith.

These pages are filled with our memories, which we hope will be experiences, you too will enjoy.

To the Years of

Victory and Peace

DEDICATION

TO THE PERSON WHO, THROUGH THE YEARS HAS BEEN A TRUE FRIEND TO US ALL. AND WHO LIKE SOCRATES, HAS TAUGHT US THE SIGNIFICANCE OF "KNOW THYSELF". IN SPITE OF THE TREMENDOUS RESPONSIBILITIES OF HER POSITION, SHE HAS MADE EACH OF US REALIZE MORE FULLY THE TRUE MEANING OF OUR PROFESSION.

WE SINCERELY DEDICATE **TRES ANNI,** OUR FIRST ANNUAL, TO MISS MARGUERITE ANDELL, OUR DIRECTOR OF NURSING.

MARGUERITE ANDELL, R.N.

I Shall Not Pass This Way Again

By EVA ROSE YORK

I shall not pass this way again—
Although it bordered be with flowers,
Although I rest in fragrant bowers,
And hear the singing
Of song birds winging,
To highest heaven their gladsome flight;
Though moons are full and stars are bright,
And winds and waves are softly sighing,
While leafy trees make low replying;
Though voices clear in joyous strain
Repeat a jubilant refrain;
Though rising suns their radiance throw
On summer's green and winter's snow,
In such rare splendor that my heart
Would ache from scenes like these to part;
Though beauties heighten,
And life-lights brighten,
And joys proceed from every pain—
I shall not pass this way again.

Then let me pluck the flowers that blow,
And let me listen as I go
To music rare
That fills the air;
And let hereafter
Songs and laughter
Fill every pause along the way;
And to my spirit let me say:
"O soul, be happy; soon 'tis trod,
The path made thus for thee by God.
Be happy, thou, and bless His name
By whom such marvelous beauty came."
And let no chance by me be lost
To kindness show at any cost.
I shall not pass this way again;
Then let me now relieve some pain,
Remove some barrier from the road,
Or brighten some one's heavy load;
A helping hand to this one lend,
Then turn some other to befriend.

O God, forgive
That now I live,
As if I might, sometime, return
To bless the weary ones that yearn
For help and comfort every day—
For there be such along the way.
O God, forgive that I have seen
The beauty only, have not been
Awake to sorrow such as this;
That I have drunk the cup of bliss
Remembering not that those there be
Who drink the dregs of misery.

I love the beauty of the scene,
Would roam again o'er fields so green;
But since I may not, let me spend
My strength for others to the end—
For those who tread on rock and stone,
And bear their burdens all alone,
Who loiter not in leafy bowers,
Nor hear the birds nor pluck the flowers.
A larger kindness give to me,
A deeper love and sympathy;
Then, O, one day
May someone say—
Remembering a lessened pain—
"Would she could pass this way again."

Historical

Many changes have taken place in the Nursing School since its organization in 1883 when it was known as the Charleston Training School of Nursing. At that time the school was located on Queen Street and had a two-year course consisting of not more than ten pupils divided into two classes. In 1905 the Roper Hospital was rebuilt on its present site and the school was incorporated by the State of South Carolina as the Roper Hospital Training School for Nurses. The School continued to progress and in 1916 the Board of Commissioners of Roper Hospital proposed to the trustees of the Medical College of the State of South Carolina that the School of Nursing be affiliated with that institution. The proposal was accepted by the College and in 1919 the school became known as The School of Nursing of the Medical College of The State of South Carolina.

Not only has the Nursing School advanced, but the entire hospital as well. In 1887 Riverside Infirmary was established by the City Hospital Board, and in the early twenties the Children's Ward was equipped by the Women's Auxiliary; the Obstetrical and Dental Departments were also established, the latter having been discontinued after a few years. In 1922 a list of full-time instruction for nurses was organized and the Department of Nursing Education was formally established in 1937.

Additional changes have occurred with each passing year. A Communicable Disease Unit and Riverside Annex have recently been added to the hospital plant. The school cooperated with the United States Cadet Nurse Corps and trained Cadet Nurses during the emergency of World War II.

The hospital today is equipped to accommodate 350 patients which ensures ample clinical experiences in Medicine, Surgery, Pediatrics, Obstetrics, and other phases of Nursing. The number of patients receiving treatment annually has increased from approximately 1,500 in 1897 to over 8,000 today. The latest addition is the portion of new Roper Hospital which will be opened January 1, 1946 and will accommodate 180 additional patients.

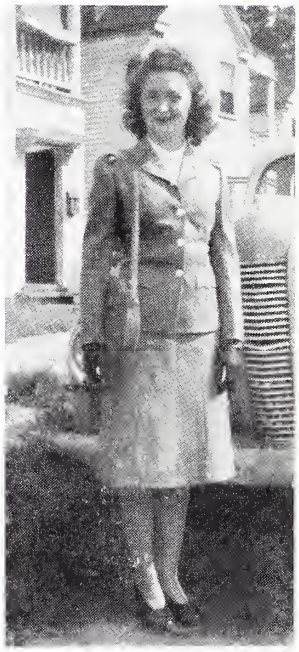
Sports

Athletics play an important part in the Nursing Curriculum. We realize that in order to be mentally fit and alert, we must be in good condition physically. In addition to the tennis court, ping-pong tables, dancing and croquet available on the campus, students have access to the Y. W. C. A., swimming pools, the various beaches and the Yacht Basin. Softball has rapidly become a favorite among the nurses and internes.

The Bolton Bill for Nurses



Due to the emergency created by World War II, the Bolton Bill, signed by the late President Roosevelt on June 15, 1943, became an Act. This program, directed by the United States Public Health Service and under the guidance of Lucille Petry, Director of the Division of Nursing Education, authorizes the expenditure of Federal funds for: (1) refresher courses for nurses who have been inactive in nursing; (2) postgraduate study in special fields of nursing; (3) "basic training" of student nurses.

This "basic training" included payment of funds for tuition, uniforms, and monthly stipends for students. Cadet nurses were to complete the instruction in nursing schools in a maximum of 30 months and then be assigned to special service in a military, non-military governmental or civilian hospital or to other agency for six months thereafter. They agreed to stay in essential nursing work for the duration, but this does not necessarily mean military service.

A Nurse's Prayer

By ETHEL MARIE SCHUTT

Help me to do my best, dear Lord,
When giving nursing care,
And help me comfort those in pain—
So many have to bear.

Oh, give me strength and power, Lord,
So that I might possess
A personality that's full
Of cheer and friendliness.

Help me to do the thing that's right,
And not be incorrect;
Oh, make me, Lord, that type of nurse
All patients will respect.

And they, dear Lord, who always feel
Somewhat depressed and blue;
Help me to bring them happiness
And start their lives anew.

Help me to be an honest nurse—
Not one who craves for fame,
But one whose loyal actions, Lord,
Will make a wholesome name.

Amen.

The Florence Nightingale Pledge

I solemnly pledge myself before God and in the presence of this assembly to pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to elevate the standard of my profession, and I will hold in confidence all personal matters committed to my keeping, and all family affairs coming to my knowledge in the practice of my calling. With loyalty will I endeavor to aid the physician in his work, and to devote myself to the welfare of those committed to my care.
